RE-ENROLL / ENROLLMENT: WHAT YOU NEED TO KNOW

Re-enroll / enroll at 4h.zsuite.org after **October 1st**.

Returning families should log into your existing account. If you have forgotten your password, please contact our office. New families will need to create a household account before enrolling members. We have zsuite resources for new families on our website.

When selecting your projects, please order materials at that time. We recommend **Project Handbooks** (not to be confused with the Project Books) be shared within the household as they are more costly. If a sibling has previously been enrolled in the project, you may have a copy of the Handbook in your home already. If you have Project Handbooks that are no longer being used, please consider recycling - we are happy to take them in our office to pass onto other members. For your convenience, project materials will be ordered through our office. This also saves on shipping costs.

Please **update household demographics** when re-enrolling.

Once you have completed your re-enrollment/enrollment, **you will receive more information from Sidney** about the new 4-H year. **Please take time to read through the material.**
