SENSOR INQUIRY

Today you will use sensors to solve a problem or answer a question.

1. Draw and describe the problem or question you chose. In your drawing, include the **sensor** you will use.

My problem or question is: _____

2. Next, determine what you need to measure to know you have the answer to the problem.

I will measure: _____

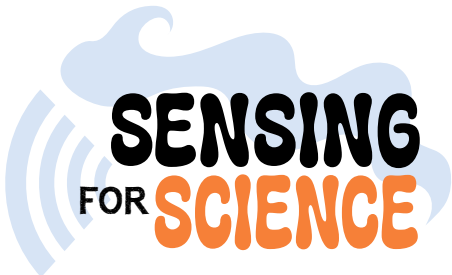

I will have solved the problem if: _____

I will also try to change: _____

MY EXPERIMENTAL RESULTS:

What I did:	What happened:
What I did:	What happened:
What I did:	What happened:

MY CONCLUSIONS

My problem or question was: _____

My solution/answer is: _____
